

Summary of edits/changes to the Application Guide for the California Youth Soccer and Recreation Development Program based on comments submitted during the 45-day public comment period from 11/2/2015 through 12/18/2015

Cover:

Corrected name of program from “California Youth Soccer Recreation and Development Program” to “California Youth Soccer and Recreation Development Program.”

Added descriptor that indicates the program includes soccer, baseball, softball and basketball.

Application Checklist:

Clarified that all items must be submitted for a complete application.

Checklist now correctly indicates which items are required at the time of application and which can be submitted later.

Specified that any items submitted later must be submitted within 60 days of the application deadline.

Page 2:

Under the Youth Soccer Program Information, Project Considerations: Clarified information about amenities.

Grant Scope/Cost Estimate Form:

Added clarification that costs listed for grant scope items should be the estimated amount to be charged to the grant.

Added a line requesting total cost of the entire project (including and beyond grant amount requested).

Page 19:

Added a header, “Criteria Instructions.”

Criterion 2:

Due to redundancy, removed “E. Describe the NEW OPPORTUNITIES that would not occur if this PROJECT is not implemented.”

Criterion 4:

In the scoring rubric, to earn 3-0 points, changed sentence from “The PROJECT will have limited daily operating hours and will only be open for school use.” To “The PROJECT will have limited daily operating hours and/or will only be open for school use.”

Criterion 5:

Changed reference to “project manager” to read “project manager/consultant.”

Changed items in scoring rubric that stated, “and has a plan to operate and maintain the PROJECT” to read “and has demonstrated capacity to operate and maintain the PROJECT.”

Criterion 6:

Changed verbiage throughout to further clarify the relationship between the jurisdiction’s water use reduction requirements and the project.

Definitions:

Added definition for Match and for Water Conservation.
